

NICOLE

REKHA

JENNIFER

New Team, New Energy, Spectacular Success!

If you have not heard yet, we are proud to tell you that Nicole Weithaas Scott, MPT, has become our Clinical Director. Since January, Nicole has taken the reins of leadership and has quickly infused the staff with her special brand of energy and enthusiasm and elevated the team spirit to new highs. A lifelong athlete, Nicole has worked with professional athletes and specializes in analyzing runners' form. Tell your running friends to come to CPT for great results.

Rekha Lund, MPT, continues to oversee training of new staff and organize in-services for the clinical team as one of CPT's Assistant Clinical Directors.

Jennifer Haynes, MSPT, recently became CPT's second Assistant Clinical Director. Jennifer created and is supervising our new internship program, which helps train future physical therapists in aquatic therapy. Jennifer has developed into our leading physical therapist for the care of neurological patients.

Spread the Health...

You already know either from hearing about us or from your own experience that miracles take place in our pool every day. And you may have been upstairs to our lovely gym and felt the great hands-on care delivered by our exceptional physical therapists. We take great pride in knowing that our patients get results – they feel less pain and stiffness and they leave our care with greater capability and strength.

We hope you are well and don't need our services, but you may have a family member or friend who could benefit from the same fine care you have received in the past. They will thank you for referring them to us.

CompletePT Gets Results.

Over an eight-year period I worked with six different physical therapists, consulted with eight orthopedic surgeons, had four MRIs, tried herbs, acupuncture, and deep tissue massage and I still couldn't do much more than walk on a level surface without serious pain in both knees – and I'm only twenty-nine years old. After pool sessions at CompletePT for five months, I am now running without pain.

TONY DIAMOND
PATIENT

As a former athlete and dancer, I'm well acquainted with injury and with physical therapy. No other program has ever had such a positive influence on my recovery as CompletePT's.

LESLIE MARGOLIS
PATIENT

Lynda Huey's pool program bought me an extra year of running around in movies. I'd tell you about CPT's new genius techniques for preventing knee surgeries, but you've got to feel it for yourself!

SINBAD
COMEDIAN & PATIENT

Our sterling reputation has been built by helping elite athletes and entertainers get back to their work quickly. Now we can help you achieve a faster, more lasting recovery. To find out more, or for a tour of our facility, call today:
